SUMMARY

Front-end developer with a strong background in HTML5, CSS3, and JavaScript (ES6+), specializing in creating responsive, browser-compatible interfaces. Comfortable with React, and comfortable with state management tools such as Redux and NgRx. Worked with RESTful APIs using Axios or Fetch, and wrote clean, reusable code. Version control is carried out on a daily basis using GitHub and Bitbucket. Has experience with CSS frameworks like Bootstrap, Tailwind, and Material UI. Understands basic testing using Jest and adheres to Agile procedures. Excellent in debugging, troubleshooting, and collaborating with designers and testers to produce dependable front-end solutions. Quickly pick up new tools and adapt to project requirements.

SKILLS

Technical Skills

- HTML5
- CSS
- JavaScript
- Java
- React.js
- MySQL
- BootStrap
- Figma
- Git / Github
- C++
- Node.js
- Debugging
- Troubleshooting
- Responsive Design
- Front end Development

Soft Skills

- Effective Communication
- Time Management
- Problem Solving
- Critical Thinking
- Adaptability

PROFESSIONAL EXPERIENCE

Freelance Contributor - Outlier AI Oct 2024 - Present

- Enhanced LLM performance and optimized program workflows, increasing overall efficiency by 25%.
- Developed and enhanced code to boost the model's utility, accuracy, and efficiency.
- Discovered code bugs, enhancing system stability and minimizing errors in model output.
- Collaborated a lot with the technical team to ensure code uniformity and timely modifications that corresponded with the project's goals.

PROJECTS

User Recognition For App Ratings

- Developed a user recognition system using Python to identify users and allow them to rate applications, preventing bot reviews.
- Implemented a secure authentication mechanism to verify user identities, resulting in a 10% reduction in fraudulent reviews.

Note Editor

- Developed a responsive web application for note editing using React, HTML, and CSS.
- Implemented an auto-save feature using local storage to prevent data loss, resulting in a 99% data retention rate during unexpected browser closures.

Little Lemon Restaurant

- Developed a responsive restaurant web app using React and Figma for UI/UX design.
- Integrated interactive table reservations, reducing booking friction and increasing test group engagement by 30%.
- Used component-based design for reusability and maintainability, simulating enterprise UI development.

EDUCATION

Easwari Engineering College Aug 2019 - Aug 2023

Bachelor of Engineering in Computer Science and Engineering

CGPA : 8.72
